- Visiting Professionals for
further assessment

New Beginnings...

New Beginnings for both the center and the client.

We are excited about the expansion of Thunder Creek Rehabilitation services in the Five Hills Health Region into the area of withdrawal management.

We are pleased to offer 20 beds for withdrawal management as well as two Transition Beds.

Our doors are open to clients needing detoxing. Our Transition Beds are primarily for Five Hills Health Region clientele and are used as a safe place for those awaiting inpatient treatment. Please contact the Program Manager, Wakamow Manor for further details.

TO NEW BEGINNINGS***

Referrals....

Referrals can be made by clients directly calling us at 306-694-4030.

Referring agents are welcome to send information regarding referrals after the client has called.

Our preference is to speak with the client to determine if our services are the best fit at this time.

Admission appointment will be given within 48 hours of call, space willing.

Clients are asked to come at the specific time given at the phone call to best serve them.

Smoking Policy

We at Wakamow Manor want to have the best for the client in mind, and that includes any smoking behaviors that a client comes with.

For safety and health reasons, clients are asked to abide by our smoking guidelines, which includes smoke breaks at timed intervals.

Those having difficulties with this arrangement will be offered nicotine replacement therapies.

We value the health of our clients and staff.
